

## Reference Sheet

Green Business Certification/ LEED Certification

### LEED Certification

- LEED certification is our internationally recognized leadership standard for green buildings. LEED, which stands for Leadership in Energy and Environmental Design is a system that evaluates how “green” a building is and applies a designation, or LEED certification, to a building to easily represent that analysis.
- Since 2021, Sutro Biopharma Headquarters and R&D operation occupies a 5-story green building (LEED v4 ID+C CI Silver certified since 06/28/2018) which achieved outcomes by using less energy and water, reduce greenhouse gas emissions and offer a healthier indoor environment for our employees and visitors, which in turn reduces sick days and increases productivity.
- LEED-certified buildings contribute to climate mitigation in several ways:
  - **Use less energy and water:** When building projects are rewarded for deeper energy and water efficiency retrofits, there is an opportunity to reduce the consumption of fossil fuel and electricity. Similarly, LEED rewards reductions in water use and the “embodied carbon” used to produce, move and treat that water.
  - **Consider life cycle impacts:** LEED encourages life cycle assessment (LCA) of building materials and products, and, in turn, whole buildings. Assessing alternatives based on life cycle GHG is a critical first step to selecting lower-impact approaches and providing market feedback.
  - **Support sustainable strategies:** Green buildings provide mechanisms to actively influence employees in ways that support the climate. For example, buildings can create opportunities for more composting and reduced landfill waste and for alternative transportation as provided by our Cove community.

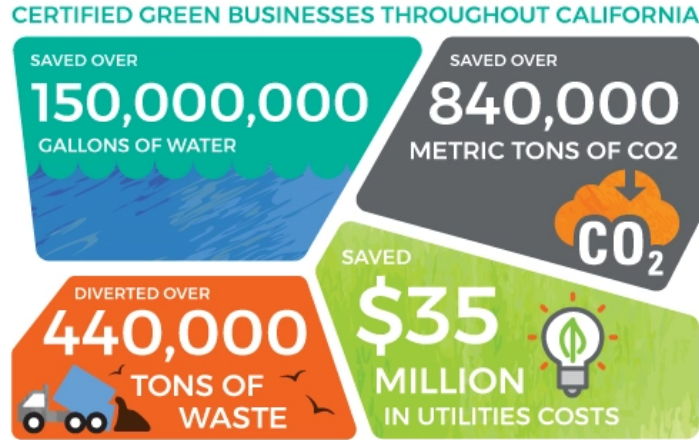

### Green Business Certified

- **What is Green Business Certification?** A green business is a company that operates in an environmentally sustainable manner, meaning it considers the impact of its operations on the environment and works to minimize any adverse effects. This can include reducing waste, conserving natural resources, and using renewable energy sources.
- **Green Business Certified:**
  - South San Francisco location certified April 4, 2023
  - San Carlos location certified August 15, 2023
- **Good for the environment:** Sutro Biopharma does our part to fight climate change by saving your company’s valuable resources as well as the environment.
- **Saves money:** Green Businesses implement practices that lead to cost savings in energy, water, and garbage bills.
- **Improve employee wellness and productivity:** By using less toxic products, employees benefit.

Sutro Biopharma is part of the statewide California Green Business Network, the only program of its kind, with participation from over 4000 businesses through California and direct support from the State legislature.

**Since GBC Recognition on 04/04/23, Sutro Biopharma Saved a total of :**

**GREENHOUSE GAS EMISSIONS SAVED**

	52,864 lbs of CO <sub>2</sub> Total \$ Savings \$90	=	That's the equivalent of planting 81 acres of urban trees	
---	--	---	---	---

**ELECTRICITY SAVED**

	77,567 kWh Total \$ Savings \$7,859	=	That's the equivalent of powering 6 houses for an entire year	
---	-------------------------------------	---	---	---

**WATER SAVED**

	175,355 gallons of water Total \$ Savings \$552	=	That's the equivalent of 4,174 bathtubs of fresh drinking water	
---	---	---	---	---

**FUEL SAVED**

	77,567 kWh Total \$ Savings \$7,859	=	That's the equivalent of powering 6 houses for an entire year	
---	-------------------------------------	---	---	---

**THERMS SAVED**

	326 therms of natural gas per year Total \$ Savings \$304	=	That's the equivalent of heating 8 homes for an entire year	
---	---	---	---	---

**SOLID WASTE DIVERTED**

	19,787 lbs of waste total \$ savings of \$1,329	=	That's the equivalent of -1 garbage trucks worth of diverted waste	
---	---	---	--	---
